

Hello everyone,

I hope you are all still keeping safe and managed to enjoy and have a nice Easter despite all that is happening and taking place at the minute. As was announced in the past few days, the restrictions previously put in place in relation to the Covid-19 virus have now been extended until the 5<sup>th</sup> May meaning schools will remain closed until that date. While everyone is still hopefully prioritising their health and well-being at the minute this is just a brief note regarding some activities pupils can be working on while they are remaining at home.

Attached is an outline for the current week and a resource pack with activities to go along with it. These are also available from the class page on the school website. I decided to line the activities out for each day as this may be helpful as a guide on when children might work on different tasks. This is by no means the way or order these activities need to be completed. Everyone will have a different way of approaching this that will work for their own situation and that is absolutely fine. As I also mentioned in the previous note there is absolutely no pressure to get all these activities done or completed fully. Feel free to pick and choose and work at whatever pace or on whatever topics work best whenever time is available.

As before, if there is a topic or task that is proving challenging or difficult to grasp simply make a note of it for when we return to the classroom or contact me via the email below and we can look at it further.

If you are having any trouble accessing any of these resources, just let me know. Children can continue to record the answers to questions or tasks on a separate sheet or copy. If you would prefer to have printed versions of the resources for pupils to work from and don't have access to a printer just get in touch and we can arrange to get these to you by post.

Studyladder activities will be added over the coming days and some resources for activities later in the week will be added to the website on Wednesday. Just check the 3<sup>rd</sup> & 4th Class activities page <http://www.danganns.ie/3rd-4th-class/>. (The password for the activities is still: rabbit)

The email address for getting in contact with myself is still [danganns3rd4thclass@gmail.com](mailto:danganns3rd4thclass@gmail.com) so if you have any queries or questions about any part of this or anything else that may come up in the meantime please don't hesitate to get in contact.

I hope you are all keeping well and I continue to wish you and all your families the very best of good health.

Mr. Gannon
